### Auction Sales To-day.

LUMLEY FRANKLIN, 111 Yates street. Will sell at 11 o'clock, at the store of Mr Moncks, Waddington Alley the fixtures and appliances of a Bakery, including Cracker Machine, Troughs, &c.

**His Last Kick.**—Mr DeCosmos is engaged in the cheerful task of driving the last nail into his political coffin. His solemn pledge, made in the presence of twenty gentlemen at the meeting the other day, that he would abandon the No Terminus No Consideration heresy, was no sooner uttered than it was forgotten. At the meeting aforesaid he played the "Uncle role of Uriah Heep to perfection, and in effect apologized to those present for having advanced the absurd doctrine. He distinctly stated that he would not indicate any point as the terminus—that that must be settled by the survey, &c., &c. No sooner, however, had he emerged from the moral atmosphere of the meeting than he proceeded at once to his office and penned a most violent diatribe in opposition to the very principles he had enunciated at the meeting. Yesterday morning he followed with a still more violent attack upon all who dare to express themselves in terms similar to those he himself adopted at the meeting! A more complete somersault was never made—even by DeCosmos; and it is not too much to say that every person who was present is heartily disgusted with the faithlessness of the man. But his Jim-Crow leap is not the worst part of his conduct. Twenty persons heard him say over and over again that he would not indicate any particular place as the terminus; yet he now denies that he ever said so and "goes in strong" for his original proposition! We shall not venture to express an opinion of Mr DeCosmos' extraordinary course. It is enough for us to know that he was denounced yesterday as either a madman or a worthy disciple of Annanias and Sapphira.

**The Old Beaver.**—The surviving steamer Beaver was brought around from Esquimalt yesterday and cast anchor in James Bay, preparatory to being handed over to Hudson Bay Company—the term for which she was engaged by the Imperial Government for surveying purposes having expired. It has been frequently stated in these columns that the Beaver was the first steamer that disturbed the placid waters of the Pacific. It was in 1835, we believe, that the H B Company sent her around the Horn. She was then considered a first class steamer, and the crude ideas of designers and builders of those days contrast strangely with modern plans. As a staunch vessel the Beaver, notwithstanding 35 years of active service, has no superior. Her British oak timbers are apparently as sound as when she was first constructed. Some six years ago she struck heavily upon a corner of one of the Race Rocks. She floated without having sustained apparent injury and continued in service; but some months subsequently she was docked for repairs to her copper, when a piece of rock weighing ten pounds was found imbedded in one of her timbers. Race Rocks had actually got the worst of the encounter!

**Advised to Withdraw.**—A letter received from Nanaimo states that Banister's committee have written to him stating that he has not a ghost of a chance of being elected, and advising him to withdraw. It is also stated that the few who still adhered to the tottering cause were trying to get up a requisition for Mr Robertson to stand. Other letters state that the party has completely broken up and that Mr Robson will be unopposed.

**Buggy Accident.**—On Wednesday evening, as a horse attached to a buggy was being driven by a gentleman towards Esquimalt, the axle of the vehicle gave way. The gentleman was precipitated into the road, and the reins becoming twisted round his legs, he was dragged some thirty yards—fortunately escaping without injury—before the animal could be stopped. The buggy was sent to Dr Gerow yesterday for surgical treatment.

**Nanaimo Politics.**—Passengers from Nanaimo yesterday report that Banister completely destroyed his chances by his last speech, and nearly all his former adherents have expressed their intention not to vote for a man who could talk such ridiculous nonsense as he then did. About one-half of the disaffected have declared that they will vote for Mr Robson, and the remainder have prepared a requisition to A H Robertson, Esq. of this city to stand for the seat.

**A Beautiful Model.** of the ship Southern Empire, of the Liverpool Black Ball line, has been made by Harry Fry, a sailor from the bark Princess Royal, and who has been confined to the Royal Hospital for five months. The model is a complete and beautiful one in a neat glass case, and is about to be raffled for the benefit of Fry.

**The Difficult Surgical Operation.**—Mr Guy Huston, we are glad to know, is progressing favorably. The operation was performed by Dr Davie, assisted by Drs Powell and Helmcken. The operation consisted in the excision of the knee joint. The patient was under the influence of chloroform.

**From the West Coast.**—Messrs Ward and Davis returned from a prospecting tour to the West Coast and the Straits yesterday. They bring back a little gold obtained from the mouths of rivers. They saw some fine-looking quartz ledges, but without tools were unable to examine them to advantage.

**We are gratified to meet once more Mr George Pearkes,** who yesterday appeared in town for the first time in many months. Mr Pearkes' restoration to perfect health is now considered certain.

**The schooner Ocean Pearl** cleared from San Francisco for Victoria yesterday.

**PRIZE DISTRIBUTION.**—At Mrs Wilson Brown's school, yesterday, the annual distribution of prizes took place. Exercises in instrumental and vocal music and in French were gone through. A piano solo, by Miss Haywood, was exquisitely played. Miss Banks sang two ballads in a full, rich soprano. Afterwards a class in French was highly complimented. Owing to Mrs Wilson Brown's illness an examination in other branches was not had. The prizes were presented by Hon Dr Helmcken. To Amy Helmcken was awarded the first prize, and to Miss Poers the second. Remarks were made by Rev Mr Crigge, Dr Helmcken, Inspector-General Alston and other gentlemen.

**VICTORIA DISTRICT.**—Great dissatisfaction and grief are manifested by the residents on the East Coast who are comprised in Victoria district that DeCosmos is likely to have no opposition. They had been led to believe all along that Mr Nathan would come out; and declare that had they known no Victorian would offer they would have put up a farmer. The district is much to be pitied; but it is not even now too late to rescue it from the influence of Ignorance and Bombast should a good man come forward.

**FROM NANAIMO.**—The steamer Sir James Douglas arrived from Nanaimo at 4 o'clock yesterday afternoon, bringing Messrs J Hutchison, A R Robertson, Geo Robertson, J F McCraig, P Brennan, C Provost, H Fry, J Pleace, two Sisters of Charity and a few other passengers, and a quantity of Island produce. The ship Slooping Star has arrived at Nanaimo and is now discharging ballast. The political cauldron is boiling at Nanaimo and Banister's defeat is assured.

**THE DAWSON WHALERS.**—Mr Hutchison, who has just returned from Hornby Island, reports 14 whales secured. He was present at the catching of one monster and describes the scene as very exciting and interesting. The boats were starting out to "prospect" a large shoal of whales when Mr Hutchison left. The result of the season's work thus far is very gratifying.

**LAST NIGHT.**—A full house greeted the minstrels last evening. The performance was the best of the engagement and we cordially recommend the troupe to our Puget Sound contemporaries.

**Auction Sale.**—Mr Lumley Franklin will sell on the premises, Waddington alley, at 11 o'clock this morning, the machinery, tools, stock, etc, of Mr Wm Moncks' crackerery.

**MECHANICS' INSTITUTE.**—It will be observed that the annual meeting of subscribers to the above excellent institution will take place on Tuesday next, the 1st prox.

The mail steamer Isabel, Capt Starr, arrived from the Sound yesterday at 5 p.m. with 36 passengers and a mail. Purser Lovell has our thanks for late papers.

**FOR THE SOUND.**—The mail steamer Isabel, Capt Starr, will sail for Port Townsend to-day at 10:30 a.m.

The propeller California will sail from Portland for Victoria on Saturday at 4 o'clock p.m.

The Public Meeting has been fixed by the Mayor for to-morrow evening at 7 1/2 o'clock at St Nicholas Hall.

**VAT'S THE MATTER?**—Asked Banister, when he heard the bad news from Nanaimo.

By Electric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Europe.

Tours, Oct. 26.—Roubaix, who saved the Czar's life when an attempt was made to assassinate him, in Paris in June 1867 has just gone from Middelheim to St Petersburg on a secret mission from Napoleon.

Departments from Metz say that the Prussian commander before that city was compelled to issue orders declining to admit them within the Prussian lines.

It is said that basis of peace likely to be accepted by Prussia is a renunciation of territorial spoil at once what France is receiving. It is reported further that safe conduct has been asked for Thiers to enter Paris in order to obtain the acquiescence of Government.

The Prussians again attacked Châtillon, and were repulsed the day before yesterday. At night they retreated. We hold the position and have taken many prisoners.

The bombardment of Schlestadt commenced on the 18th.

Tours, Oct 24.—Journals give particulars of the alleged massacre of the French Giron which was recently captured at Soissons. The soldiers are said to have all been shot in the woods near that city—but others in cold blood. The Government has faith enough in the story to make it the subject of official inquiry with a view to retaliation.

The Prussians while preparing to besiege La Fente Tabin suddenly retreated leaving behind all their utensils and quantities of stores. They went towards Laon. A messenger arrived in the German camp and this at once caused sudden departure.

It is reported that the Prussians have suffered a defeat with heavy loss at a point in the neighbourhood of Liferie and troops have been hastily withdrawn to reinforce the beaten army.

News received from Verdun says that the garrison made a sortie and drove the enemy from several positions, killing many and capturing 2 mortars and 22 cannon.

Advices from invaded provinces show that Prussians continue to shoot Franco-tireurs who fall into their hands.

St. Quentin, Oct 24.—Via London Oct 24.—This city was evacuated yesterday. The siege of Liferie is abandoned. The Corps Wurttemberg and the Duke of Mecklenburg are retreating to Paris.

London, Oct 24.—At Luxembourg a permanent Committee have been constituted to defend the neutrality of the Duchy. The population is indignant at the disposition of the Tours Government to cede the Duchy to Prussia instead of Lorraine.

selection of members for the Constitutional Assembly which may make peace. Many people incline to the belief that the English Cabinet is now acting by the advice of Prussia who stopped indefinitely before Paris and has made known to England that the time has come for action on her part.

Reports today in explanation of General Boyer visit to the King of Prussia that offers of peace had been made to Bismarck and that he was invited to send an embassy to Versailles.

People in official circles dwell on the circumstance that the present movement of England follows close on the circular in which Bismarck affects such concern lest the Parisians may suffer the horrors of famine. They declare that France must act with courage now, she will not accept any humiliating terms.

There are rumors here that conditions of peace have been signed between Bazaine and King William, by which it is stipulated that the Empress Eugenie shall give her consent to go to Versailles and sign the treaty as the representative of the only government recognized by the Prussians.

Tours, Oct 24.—Orleans is now occupied by 25,000 Prussians with 60 pieces of artillery. The enemy have made fresh requisitions on the city.

The government refuses information relative to the French forces on the Loire, but it may be stated that they are in motion and the result will soon be known.

It is stated on good authority that the intervention by England in favor of an armistice was induced by an apprehension that ultimately it would become the policy of Russia and Prussia to form a close alliance. The fact that Russia is quietly arming is well known despite her efforts at concealment. England begins to see that the utter prostration of France would deprive her of the only strong ally to be depended on for the frustration of Russia's political schemes in the East. An uneasy feeling prevails in financial circles, and it is anticipated that should the efforts of England fail in this respect she will adopt other and stronger measures to secure a cessation of the war.

St Petersburg, Oct 22.—A battle has occurred near Candahar, which is thought to have settled the Afghan war in favor of Jakkoff.

London, Oct 31.—It is reported that the Empress is participating in the negotiations, and also the Emperor, but it is believed that nothing serious is proceeding except on the part of Granville.

Stuttgart, Oct 25.—General Suckard telegraphs to the Government here on Saturday that the French made a sortie across the Marne at Joinville on Friday last against the Wurttemberg outposts. Seven French battalions with their artillery engaged our forces from that point and Joinville to Champagne. They were repulsed by the 2nd rifle battalion and part of the 17th regiment of Wurttemberg. They lost 2 killed and several wounded.

London, Oct 25.—A dispatch from Berlin states that the latest negotiations for peace have come to naught, owing to the persistence of the Prussians to the terms for the cession of French territory.

The town of Schle capitulated yesterday to the besieging force, after a severe bombardment. The surrender included 2400 prisoners and 120 cannon.

Negotiations for the surrender of Metz continue, but make slow progress. Bazaine ignores the French Government.

Breussels, Oct 25.—Report says that 2000 men with 2 pieces of artillery marched from Thionville for Verdun to relieve the troops blockading there.

Among the signs of peace is the fact that the Superintendent of the Prussian army refused to sign the document for the Proclamation expiring on the 20th.

Tours, Oct 25.—Direct advices from Paris say that a sortie on 21st was exceedingly successful. Many Prussians were killed and taken prisoners.

Departments of the Seine and Eure are declared in a state of siege.

The constant firing at night from the forts harasses the Prussians. Up to the present time the latter have not succeeded in erecting batteries of siege guns near enough to commence the bombardment of the city.

La Loure, Oct 25.—A large force of Prussians were at Courville to-day, and their scouts appeared at Font Goin, but in the evening they returned to Charters, after blowing up the bridge at Loude Riex. 15 members of the National Guard were shot by the enemy at Jouy.

Breussels, Oct 25.—The invaders are retreating from Châtillon la Duc, taking with them 17 waggon loaded with the wounded. They left large numbers dead on the field.

Neuchâtel, Oct 24.—On Friday night the Prussians attempted to bombard Verdun, but their plans were discovered by the gallant and successful sortie of the garrison. Our troops charged with the bayonet and killed numbers of the enemy. Two bodies of the besiegers mistaking each other in the night for enemies, fought for hours and suffered heavy losses.

Tours Oct 25.—The Government has concluded to loan 250,000,000 francs. Shares to be issued in France at 85, bearing six per cent interest and payable in 34 years at par. Subscriptions to be made in France and England. The Journal Official of the 18th announces that there will be ready by the end of the month 291 mitrailleurs, 65 mortars and 300 rifled cannon.

A dispatch from Tours says the removal of the Government is discussed there. Gambetta wants to go to Clermont but is opposed by others.

Details of the ill treatment of women at St Cloud are published. When the population show resistance the Prussians treat them with brutality.

The Rouen papers relate that the Prussians at Laon ordered the authorities of the town to render justice in the name of the Emperor, as the Prussians do not recognize the Republic. The civic authorities refused and ceased the exercise of their functions.

It is reported that Garibaldi has defeated the Prussians, capturing a mitrailleuse and also 130 horses. It is also said that Garibaldi has made an effective disposal of a large force, protecting Lyons from the advance of the Prussians. His command is increasing daily.

The Prussians have withdrawn all the troops they had sent towards Lyons, apparently expecting an attack.

London, Oct 25.—Imperial bushbodies have held meetings in London with a view to making the Emperor a party to the negotiations. The Prussians are in no way responsible for these efforts; and the Empress refuses to encourage them. She said that the Tribune corresponded at that her hopes were wholly for her boy; that she regarded all attempts to replace the Emperor or herself on the throne as futile either now or in the future. The chances of Louis could only be impaired by being pre-empted now, and she declares that she will hold herself aloof from all political intrigues until peace is again restored.

London, Oct 25.—Fragments of the steamer Cambria have been washed ashore on the coast of Antrim and Donegal.

Tours, Oct 25.—Large numbers of Remington guns were distributed to-day for trial.

The troops pronounced them superior to the Chassepots because they can be fired faster.

Florence, Oct 26.—The Minister of Foreign Affairs has issued a circular to the representatives of Italy in foreign countries, denying the assertion made in a late Papal Bull relative to the reasons for the dissolution of the Ecclesiastical Council. The Minister says that Italy has not raised her will she raise any obstacle whatever either to the reassembling of the Council or to perfect freedom in its discussions and opinions.

It is said that a dissolution of the Italian Chamber is contemplated and that the election of new members will occur in November.

All the journals in this city are preparing for an early emigration to Rome, which it is generally conceded will ultimately be the capital of the nation.

London, Oct 26.—The Pall Mall Gazette announces that a meeting between Thiers and Bismarck has been arranged, the Government at Tours having accepted the principles of an armistice.

Trochu made another attempt to force an outlet near Fort Dussy on Monday but was repulsed.

Tours, Oct 26.—An extra edition of the Monteu, issued last evening, contains a decree for the issue on Thursday of a loan of one hundred and fifty million francs, to be entitled a loan for national defence.

The report is confirmed that Garibaldi had successfully attacked the Prussians.

Advices from Marais show that disorder still prevails there. Even the authority of Equirres is disclaimed. The national guards have greatly assisted the local officers in preserving order, and the city is now comparatively quiet.

It was announced last evening that the Prussians had been ousted from Orleans.

Carlsruhe, Oct 26.—A dispatch to the Grand Duke contains the following intelligence: On Saturday, the 22nd, several victorious engagements occurred on the river at Varay, Cassey, Aven and Geneville. The French losses were severe. The 1st 3rd, 4th and 15th Baden regiments took part in the actions. The German losses were insignificant.

Breussels, Oct 26.—The conference between this Government and the representatives of various southern States of Germany, regarding terms of unification, has already been begun. The Bavarian representative announced that his Government desired a separate military budget and some special taxes as well as a special postal service. He agrees that, in case these points are conceded, Bavarian deputies in the Federal Parliament shall not participate in discussions on the Federal budget. It is thought these terms will be accepted.

Rumors are circulated to-day of negotiations between Napoleon and the Prussian Government regarding the restoration of the temporal power of the Pope, and the question of peace between France and Prussia, but they cannot be traced to any reliable source and are, therefore, discredited.

London, Oct 26.—Despatches from Tours announce that a young girl of that city is creating most intense excitement by imitating the example of Joan of Arc. Hundreds of enthusiastic persons have joined her standard. Her appeals for recruits are said to be singularly pathetic and eloquent.

London, Oct 26.—Prussians will open fire on Paris on the 26th. Gen Camille claims French victory at Châtillon. Belgium is sending troops to frontier.

French regard England's mediation with distrust. The Queen has written King William, urging him to moderate his demand. The negotiations with Bazaine have failed and peace can only be gained by intervention of friendly powers. Prussians impress children to repair the railways.

The arrival of Thiers at Versailles is expected to-day. The Tours Government refuses to entertain any negotiations involving surrender of territory. Herr Jacqy has been released at Berlin.

Letter from Paris says city is tranquil. Mobiles are gradually becoming soldiers. Paris is undergoing a great deal of suffering. Several forts have been taken. Want of food will begin to be felt early in December.

In repelling German's sortie on the 7th, 400 fathers of Paris families were killed. Citizens have all gone to the front and hundreds of shops are closed. A feeling of war of immediate peace is increasing.

Word is spread that great uneasiness is caused in the minds of the English Ministry by the refusal of Russia to take part in the peace negotiations. It is feared that Russia is quietly negotiating to locate England on the Eastern question from France and Germany. Steps taken by France have been entirely in accordance with the interests of Europe.

No tidings of missing boats of steamer Cambria, and it is now thought they went down with the ship. Spanish government in awaits approval of candidature of Juan Azaola to the throne.

Paris is grieved with rain. Bismarck's constant reply to appeals for peace is that he can only deal with an authorized government.

Tours, Oct 27.—Prussians are at Arras in department of France. They have also occupied Sedan and Sarre. Prussians consented to offer large scale conduct to Versailles but no further. Thiers refused to avail himself of this, as he must first confer with the government at Paris.

Eastern States.

New York, Oct 25.—It is understood that McKenna, Attorney General of the United States, arrived this evening for the purpose of consulting with the District Attorney, Noah Davis and Marshal Sharpe as to measures for the enforcement of the election laws. It is the desire of McKenna that the power of the government should be exerted for the enforcement of the law.

A special to the Tribune from Washington last evening says that dispatches received here from New York give an account of the resistance made to U S officers in the performance of their duty of enforcing the laws passed by Congress. The Attorney General left for New York to-day and will investigate the case to-morrow. The people of New York may rest well assured that the laws will be enforced and that U S officers will be protected and sustained in the discharge of their duty. Of this they will have ample evidence before to-morrow night.

Trustworthy dispatches say that the disposition of the English Cabinet is to adjust the question at issue in a manner satisfactory to our government and favorably to the claims of American fishermen.

Details of recent disasters at sea, caused by the terrible gale of a few days ago, come to hand. The list of lost vessels increases and we have already a record of 16 wrecked on the Florida coast. The New Orleans and New York steamer Mariposa is probably a total loss.

The Charleston Republican of the 21st says that the Republican party is thoroughly victorious, making a clean sweep of the State by 20,000 majority on the Congressional ticket, and electing more than two-thirds of each branch of the Legislature; also that they have succeeded in at least 19 counties of the State.

The Charleston Courier, on the other hand, insists that a fair count of the votes would show a majority for the opposition ticket, but that a fair count will not be had. The other Charleston paper concedes the election of the Republican State ticket, but claims the election of Col McGleeson for Congress.

Washington, Oct 25.—Senator Morton has declined the mission to England, so that in the event of his resignation as Senator the Democrats, being in the majority in the legislature, cannot fail to elect a successor from their party. Settling forth the impropriety of such a course on his part, and feeling identified with the interests of the Administration, he thanks the President for the tender of the mission.

PORTLAND, Oct 25.—The strmr C S Wright is advertised to sail for ports in Alaska on Saturday Nov 5th.

The propeller California arrived from the Sound ports this morning, and will sail again on Saturday 29th at 4 o'clock p.m.

The steamer California sails on Thursday 27th at 4 o'clock p.m. for San Francisco.

The Senate passed a bill on Saturday appropriating \$5000 in aid of the Portland Labor Exchange and Immigration Society.

The Oregon Railroad Company have enough iron to complete the track to a point 33 miles beyond Salem.

SALEM, Oct 25.—Gov Grover vetoed the bill increasing the salaries of Judges of Supreme and County Courts from \$2000 to \$3000 per annum. The bill passed the Senate over the veto, but failed in the house, where the vote stood 20 to 20.

The bill granting \$300,000 subsidy to Ben Holladay's Westside Railroad passed the House to-day. It is intimated that the Governor will veto the bill, in which case it will fail to become law.

LONDON.—Lord Shaftesbury believes that the next census will show a population in London of nearly four million, a serious proportion of whom are, he says, in a state of social and moral degradation so great that, unless something is done to improve them, the British Constitution will not be worth a quarter of a century's purchase. His lordship thinks that much of this evil is attributable to the fact that all who can afford to live out of town away from their poorer neighbors do so. The ignorance and poverty of large masses of people in the metropolis, he says, exceeds anything that can be described.
